Working with EcoSet

EcoSet is hired by advertising clients to reduce the environmental impact of their productions. We are like another department on set, overseeing effective recycling and organics collection, and recirculating discards for reuse. We donate everything possible that remains after the shoot, including props, set dressing, wardrobe.

Info We Need

To get our services in motion, we'll need an **introductory phone call with the Production team** as soon as prep begins and we also request the following information:

- Tech Scout Shoot Dates Build Dates Pre-Light Date Strike Date

Production Contacts Needed:
(name, email & phone)

- Line Producer
- Production Supervisor & Coordinator
- Location Manager
- Caterer & Craft Service
- Wardrobe Stylist or Assistant

Art Department Contacts Needed:
(name, email & phone)

- Art Department Coordinator
- Production Designer
- Leadman or Construction Foreman
- Scenic Company (if applicable)
- Snow Effects Company (if applicable)

How Does Water Work?

EcoSet Provides / Pays For:

- Reusable Bottles (if purchased for the shoot)
- Portable Refill Stations (pumps, cooler, paper cups - 100 cups/day)
- Ice & sun shades for portable refill stations

Production Provides / Pays For:

- (4) Water Dispensers
- 5-Gallon Jugs & all refills needed for shoot
- Paper cups for stations (beyond the 100/day provided by EcoSet)
- PAs refill jugs during the shoot as needed

If reusable bottles are not purchased for the shoot, crew & cast need to be notified in advance to bring their own containers.

For crews of 50 or more, **4 dispensers & 8-10 jugs per shoot day** are required

How Does Waste Work?

EcoSet Provides / Pays For:

- All bins & liners (Recycling / Organics / Landfill)
- Dumpsters & scheduling
- EcoSet's crew supervises the materials recovery solutions
- No deconstruction of scenic builds or stage sweeps are included as part of our services

Plant-Based Products

Production Provides / Pays For:

- Plant-based disposable products for Catering & Craft Service, Est. \$100-150 per day, available for purchase from EcoSet

A quote will be provided before the first shoot day. A final invoice will be emailed during wrap.

Working with EcoSet

Who is EcoSet?

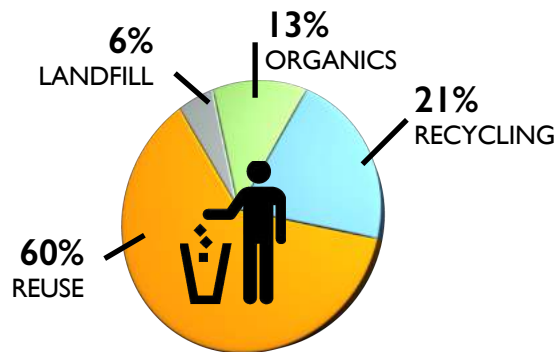

- We are another department during prep, on set & during strikes.
- Our main goal is to **minimize the environmental impact** of the advertising production process.
- We can **prevent 85-95%** of the waste generated on set from reaching landfills through collecting **organics, recycling, reusable materials and unserved food** to be donated to the local community.
- EcoSet provides **direct supervision** of the eco initiatives through our hands-on waste diversion practices on set.
- We recommend **energy efficiency** and **waste prevention** practices and **sourcing of responsible materials** during pre-production.

EcoSet's Waste Prevention & 96% Diversion Since 2009

More than **313,000** single-use plastic bottles have not been purchased

615 tons generated in 1,021 shoot days

1,484,787 lbs

96% Diverted from Landfills

Donation vs. Disposal

EcoSet donates scenic builds, discarded reusable materials, remaining props, set dressing, & wardrobe to local non-profit organizations & individuals.

Renewable Energy on Set

Solar hybrid production motorhomes & trailers avoid the use of fuel burning generators to power the departments working on and around the vehicles.

10-24 GALLONS NOT USED

Reusable Service Ware

A 100-person crew using reusable utensils & plates instead of disposables at lunch **prevents about 20 lbs of waste for just one lunch**. That's 2,000 lbs in 100 shoot days that can be avoided.
